WELCOME TO THE SUMMUM LODGE
- LOCATION -

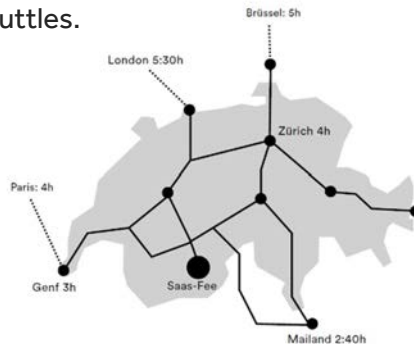

WELCOME TO THE SUMMUM LODGE

Whether by car or by train and bus: the car-free destination of Saas-Fee is easily accessible and has plenty of parking spaces.

When entering Saas-Fee, you can easily leave your car in the multi-storey car park or in the uncovered car park at the entrance to the village and continue your journey in the electric shuttles.

There are train connections from all major Swiss cities to Visp, from where you can take the bus directly to the Saas Valley.

From the airports of Zurich, Geneva, Basel and Milan, the journey time by public transport to Saas-Fee is about three to four hours.

#saasfee

PEARL OF THE ALPS

Saas-Fee is situated on a high plateau in the Saas Valley, to the west of the valley floor and above the neighbouring villages of Saas-Alma-gell, Saas-Grund and Saas-Balen. Saas-Fee is surrounded by the Mischabel mountain chain, which comprises a total of 13 four-thousand-metre peaks. This creates a unique panorama, which is why the village is also known as the "Pearl of the Alps".

The Saas Valley borders directly on Italy. Thanks to its southern orientation, Saas-Fee can provide you with Mediterranean savoir-vivre and pure sunshine. The traditional barns are sun-browned and contribute to the romantic character of the village.

DESTINATION SAAS-FEE

With a population of 1511, Saas-Fee is the largest village in the Saas Valley and the fourth largest in the Visp district after Visp, Zermatt and St. Niklaus.

During the high season at Christmas, Carnival and Easter, however, the small mountain village becomes a medium-sized town with a population of over 12,000.

Saas-Fee is in the canton of Wallis and the people of the Saas Valley speak the unmistakable Wal(li)ser German.

AT THE FOOT OF THE ALLALIN

While climate change brings an uncertain future for 60-70% of ski resorts, in Saas-Fee there is year-round snow guarantee and here the winter sport season spans 11 months:

- winter season from December to Easter
- summer season from June to November

Only during a 5 weeks-period after Easter, the lifts are closed for annual maintenance.

OBERGÜET

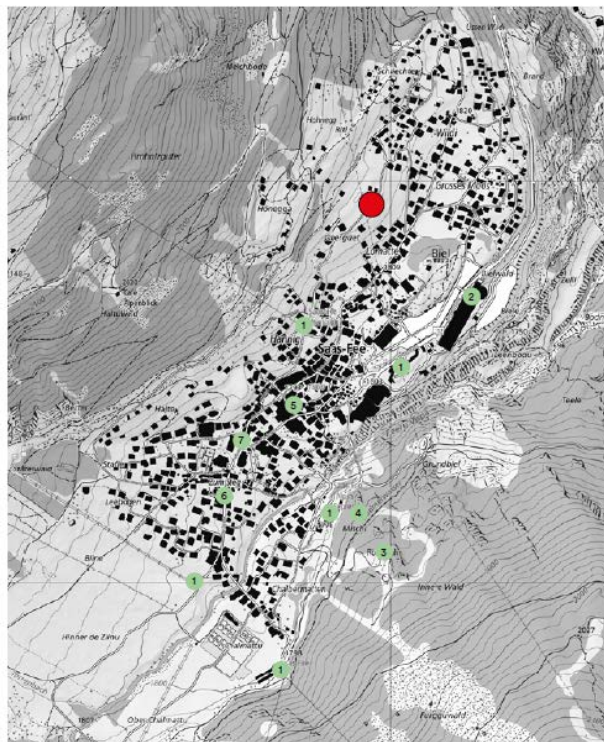

The “Obergüet” site

The Summum Lodge is only five minutes away from the Saas-Fee car park, close to the Hannig sledging run, but also in the middle of the village.

The south orientation of the five buildings, which are underground connected, guarantees numerous hours of sunshine and the best views of the majestic Alpine panorama.

WALSER CULTURE

The Walser culture has its origins in the Wallis region.

The Walser were one of the most progressive peoples of their time, and developed techniques that made it possible to cultivate even high mountain terrain.

Summum Lodge is honouring this pioneering spirit by the development of the resort.

SUMMUM LODGE'S CONTRIBUTION

Summum Lodge intends to be an addition for the village of Saas-Fee by providing extra services to the village as well as enhance the appearance of the authentic village.

Lots of green space will appear around the Lodge and the centrepiece of the Lodge will be a cosy village square, where not only Summum Lodge guests can enjoy a meal and a drink, but where villagers can also get together.

OUTDOOR PARADISE

The snow-assured areas of the Saas-Fee / Saas Valley holiday region lie between 1600 and 3600 metres above sea level. More than 100 kilometres of blue, red, black and yellow pistes promise unique skiing pleasure, surrounded by numerous four-thousand-metre peaks.

The Saastal Bergbahnen AG operate a total of 28 lifts, and even in summer you can ski on the glaciers of Saas-Fee.

That's why most of the world's ski teams train in Saas-Fee.

In summer the Saas-Fee / Saas Valley holiday region has even more to offer: Biking trails, climbing routes, hiking trails and many other activities attract visitors from all over the world.

The holiday region of Saas-Fee / Saas Valley is a diverse outdoor paradise for mountain tours. With 70 km of well-marked trails, the Saas Valley is ideal for mountain biking. E-bike charging stations, a bike skill park and various mountain restaurants complete the offer.

MOBILITY

Saas-Fee is a car free village.

An uncomplicated arrival is the best prerequisite for a relaxed stay. Therefore, Summum Lodge ensures:

- a smooth transfer by electro from the car park or station
- valet parking service
- a bus stop at Summum Lodge (15 min schedule)

To help minimise the number of vehicles visible on the streets, Summum Lodge uses a smart silent logistics concept in which all deliveries will be handled underground via an elevator.
